Accessories Precautions

The GPS antenna is located in the dashboard. Metallic front or side window tinting can seriously degrade or obstruct GPS reception.

Signal noise from devices such as radar detectors, vehicle tracking devices, remote starters, and additional amplifiers can disrupt the navigation system. If you install any such item, install it away from the navigation display and antenna.

Important Safety Information

WARNING

Using the navigation system while driving can take your attention away from the road, causing a crash in which you could be seriously injured or killed.

Only operate system controls when the conditions permit you to safely do so.

Avoid focusing on the screen or manually operating the system controls while driving.

Certain on-screen controls are disabled when driving. Pull to the side of the road if you need to devote more attention and time to look at the screen or access additional menus.

Route guidance may conflict with street closures, road construction, detours, and out-of-date map data.

The system itself may also have limitations. Verify route information by carefully observing roads, signs, and signals. Always use your own judgment and obey traffic laws.

 **System Limitations** P. 126

NOTICE

Clean the screen with a soft, damp cloth. You may use a mild cleaner intended for use on navigation screens.

- Available voice commands are highlighted on the screen.

*1: Voice Commands can be used in UK English, German, Italian, French, and Spanish.

Q Why does the vehicle position icon on the map appear slightly off my actual position, especially at junctions?

A This is normal. The navigation system is unaware of the width of junctions. Large differences in vehicle position can indicate a temporary loss of the GPS signal.

Q Why does the “Arrival time” display sometimes increase even though I am getting closer to my destination?

A The “Arrival time” is based on the speed limit on each road. Depending on the traffic conditions, the “Arrival time” may be calculated to be earlier or later.

Q Why does my clock frequently change the time forward and backward by one hour?

A The clock setting is automatically updated based on your GPS location. If you are driving near a time zone border, the automatic update likely is the reason.

Q How do I turn on the navigation system voice guidance?

A 1. Press the (Map) icon and then press the (Back) icon.
Select **Settings > Navigation** and enable **Voice Prompts**.

2. Press the (Home) icon.
Select **Settings > System > Sound/Beep** tab.
Turn up **Guidance Volume**, if guidance volume is low.
For more details, see the Owner’s Manual.

Q How do I specify a destination when an entered town or street could not be found?

A Try selecting the destination directly from the map.

How to Use This Manual

This section explains different methods on how you can easily find information in this manual.

Searching the Table of Contents

➔ P.1

Two types of Tables of Contents help you find your desired information.

First, find the general chapter related to what you are looking for (e.g., entering a destination from the Favourites). Then, go to that chapter to view a more specific table of contents.

This more detailed table of contents shows you exactly what information is listed by section and title.

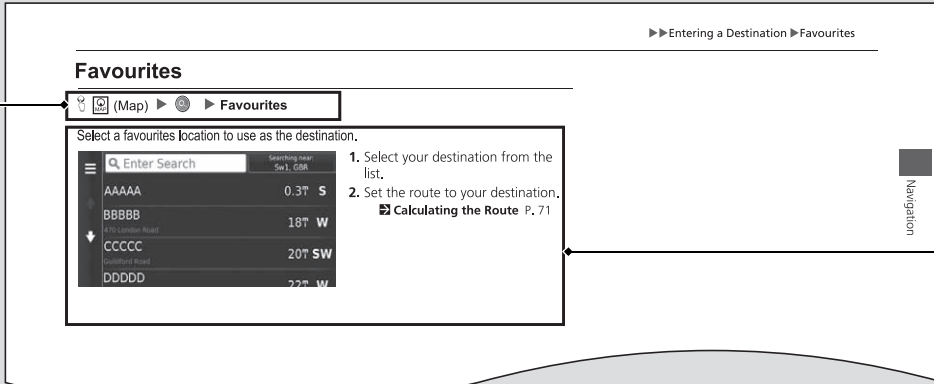

Searching the Index

➔ P.137

Menu items displayed on the navigation screen (e.g., **Favourites**) can be found individually in the Index.

After following the menu tree, step-by-step instructions explain how to achieve the desired result.

Menu Tree

The menu tree helps guide you through the system's menu options. To get to your desired function, follow the menu tree in order of the steps shown.

Select the item on the system control panel.

Select the menu option.

Select **Favourites**.

* Sample pages and images in this section may differ from the actual ones.

System Setup

This section describes the start-up procedure and the navigation and setup functions.

The navigation system starts automatically when you set the ignition switch*1 to ACCESSORY or ON. At start-up, the following confirmation screen is displayed.

1. Select **OK**.

- ▶ The HOME screen is displayed.
- ▶ If you do not select **OK** within 30 seconds, a black screen or clock will be displayed. Touch the screen to display the message again.
- ▶ The system will automatically start up the feature that was used the last time.

2. Press the (Map) icon.

- ▶ The map screen is displayed.
- ▶ When you want to display the navigation top screen, you press the  (Back) icon.

Start-up

Avoid focusing on the screen and drive safely.

When you use the navigation system, the system may close other apps.

When you select **Navigation**, the system displays the navigation feature that was used the last time. At start-up, the navigation top screen is displayed.

Limitations for Manual Operation

Certain manual functions are disabled or inoperable while the vehicle is in motion. You cannot select a grayed-out option until the vehicle is stopped. Voice commands*2 are still operable while the vehicle is in motion.

*1: Models with the keyless access system have an **ENGINE START/STOP** button instead of an ignition switch.

*2: Voice Commands can be used in UK English, German, Italian, French, and Spanish.

Your vehicle has a voice control system that allows hands-free operation of the navigation system functions.

The voice control system uses the  (Talk) and  (Hang-Up/Back) buttons on the steering wheel and a microphone near the map lights on the ceiling.

For details of the  (Talk) button,  (Hang-Up/Back) button and microphone position, see the Owner's Manual.

Voice Recognition

To achieve optimum voice recognition when using the navigation voice control system:

- Make sure the correct screen is displayed for the voice command that you are using.

The system recognises only certain commands.

Available navigation voice commands.

 **Voice Commands** P. 133

- Close the windows and panoramic roof*.
- Adjust the dashboard and side vents so air does not blow onto the microphone on the ceiling.
- Speak in a clear, natural speaking voice without pausing between words.
- Reduce any background noise if possible. The system may misinterpret your command if more than one person is speaking at the same time.

*1: Voice Commands can be used in UK English, German, Italian, French, and Spanish.

* Not available on all models

Voice Control System*1

When you press the  (Talk) button, the system prompts you to say a voice command. Press and release the  (Talk) button again to bypass this prompt and give a command.

Voice Recognition

The voice control system can only be used from the driver's seat because the microphone unit removes noises from the front passenger's side.

Map, Voice, Entering Destinations

Problem	Solution
The Startup Confirmation screen is displayed every time I start the car.	This is normal. The Startup Confirmation screen reminds you and your guest drivers to always operate the navigation system in a safe manner. The Startup Confirmation screen goes off after a certain period of time, even if you do not select OK .
The navigation system reboots by itself (returns to the opening screen).	A reboot can be caused by extreme temperatures or shock from bumpy roads, and does not necessarily indicate a problem. If this happens frequently, please see your dealer.
How do I specify a destination when an entered town or street could not be found?	Try selecting the destination directly from the map.  Map Input P. 74
How do I delete favourites places?	<ol style="list-style-type: none"> 1. Press  (Map) >  > Favourites >  > Delete Favourite(s). 2. Select saved places you want to delete. 3. Select Delete. 4. Select Yes.
I cannot hear the navigation system voice.	<ol style="list-style-type: none"> 1. Press  (Map) and then press the  (Back) icon. Select Setting > Navigation and set Voice Prompts to on. 2. Press the  (Home) icon. Select Settings > System > Sound/Beep tab. Turn up Guidance Volume, if guidance volume is low. For more details, see the Owner's Manual.

Traffic

Problem	Solution
<p>Traffic information is missing or is not displaying properly. What is wrong?</p>	<p>Verify the following:</p> <ul style="list-style-type: none"> • Traffic information relies on a clear signal. If signal strength is low, traffic data may not be available. • Check that the traffic icons are turned on. <ul style="list-style-type: none"> ▶ Traffic Information P. 87 • It is possible that there is a temporary technical problem with your metropolitan area traffic provider. Guidance, Routing

Problem	Solution
The navigation system does not route me the same way I would go or the same way as other mapping systems.	The navigation system attempts to generate the optimal route. You can change the route preferences used when calculating a route. ➤ Recalculate Using Another Route Preference P. 104
The street I'm on is not shown on the map screen.	The mapping database is constantly undergoing revision.
The vehicle position icon is not following the road.	<ul style="list-style-type: none"> • Check that GPS antenna (located in the dashboard) is not blocked. For best reception, remove items from the dashboard, such as radar detectors, mobile phones, or loose articles. • Metallic tinting or other aftermarket devices can interfere with GPS reception. Please consult your dealer. ➤ GPS P. 126
How do I stop the map from rotating as I drive along?	<ol style="list-style-type: none"> 1. Press  (Map) and then press the  (Back) icon. 2. Select Settings > Map & Vehicle > Driving Map View. 3. Check that Driving Map View is set to Track Up or 3-D. 4. Select North Up and the select Save.
The "Arrival time" display sometimes increases even though I am getting closer to my destination.	"Arrival time" is based on the speed limit on each road. Depending on the traffic conditions, the "Arrival time" may be calculated to be earlier or later.
My elevation (shown when I display the current position) seems to fluctuate even though my elevation has not changed.	This is normal. The elevation can vary ± 30 m (100 ft) due to GPS calculation errors. ➤ GPS P. 126
My elevation is missing on the "current position" screen.	The elevation is only displayed if GPS antenna can receive signals from at least four satellites. Try moving the vehicle into an open area. The elevation is also not displayed if the calculated elevation is zero or below sea level.

Update, Coverage, Map Errors

Problem	Solution
My town is not part of a fully verified detailed coverage area.	The mapping database is constantly undergoing revision.
Does the navigation system work outside coverage area?	The navigation system will not work outside map coverage area. You can maximise the map coverage by zooming out of the map.  Map Coverage P. 128

Display, Accessories

Problem	Solution
The display appears dim when starting the car in really cold weather.	This is normal. The display will become brighter after a few minutes.

Miscellaneous Questions

Problem	Solution
My clock frequently changes forward and backward by one hour.	The clock setting is automatically updated based on your GPS location. If you are driving near a time zone border, the automatic update likely is the reason.
How do I change the interface language?	Press the  (Home) icon and then select Settings > System > Others tab > Language . Select the desired language for system language. For more information, see the Owner's Manual.

GPS

The signals received from GPS satellites are extremely weak (less than a millionth of the strength of a local FM station) and require an unobstructed view of the sky. GPS antenna is located in the dashboard. The signal reception can easily be interrupted or interfered with by the following:

- Metallic window tint on the front or side windows
- Mobile phones, PDAs, or other electronic devices docked in a cradle or lying loose on the dashboard
- Remote starters or “hidden” vehicle tracking systems mounted near the navigation unit
- Audio electronic devices mounted near the navigation unit
- Trees, tall buildings, motorway overpasses, tunnels, or overhead electrical power wires

GPS is operated by the U.S. Department of Defense. For security reasons, there are certain inaccuracies built into GPS for which the navigation system must constantly compensate.

This can cause occasional positioning errors of up to several hundred feet (meters).

Address Calculation

The destination icon shows only the approximate location of a destination address. This occurs if the number of possible addresses is different from the number of actual addresses on a block. For example, the address 1425 on a 1400 block with 100 possible addresses (because it is followed by the 1500 block) will be shown a quarter of the way down the block by the system. If there are only 25 actual addresses on the block, the actual location of address 1425 would be at the end of the block.

Database

The digitized map database reflects conditions as they existed at various points in time before production. Accordingly, your database may contain inaccurate or incomplete data or information due to the passage of time, road construction, changing conditions, or other causes.

For example, some places/landmarks may be missing when you search the database because the name was misspelled, the place was improperly categorized, or a place/landmark is not yet in the database. This is also true for police stations, hospitals, and other public institutions. Do not rely on the navigation system if you need law enforcement or hospital services. Always check with local information sources.

The database does not include, analyze, process, consider, or reflect any of the following categories of information:

- Neighborhood quality or safety
- Population density
- Availability or proximity of law enforcement
- Emergency, rescue, medical, or other assistance
- Construction work, zones, or hazards
- Road and lane closures
- Legal restrictions (such as vehicular type, weight, load, height, and speed restrictions)
- Road slope or grade
- Bridge height, width, weight, or other limits
- Traffic facilities safety
- Special events
- Pavement characteristics or conditions

Every effort has been made to verify that the database is accurate. The number of inaccuracies you experience increases the longer you go without obtaining an updated map database.

📄 **Obtaining a Navigation Update** P. 128

We assume no liability for any incident that may result from an error in the program, or from changed conditions not noted above.

Resolving Problems

If you run into a specific issue that you cannot resolve, consult the following help resources:

- For navigation system issues:
 - **Troubleshooting** P. 120Or, please contact your dealer.
- For traffic-related issues:
 - **Traffic** P. 121
- For reporting issues with the database or places/landmarks:

Obtaining a Navigation Update

Honda is continuously updating the navigation system and new software is usually made available on an annual basis. For information on navigation updates for your vehicle, please contact your authorized Honda dealer for further information regarding the update program available for your vehicle.

Honda Automobile Customer Service Contact Information

Please contact your dealer.

Visiting Your Dealer

If you have a question that you cannot resolve using the available help resources, you can consult your dealer. Please identify the specific issue (e.g., error occurs when you enter a specific address, when driving on a certain road, or just when it's cold) so that the service advisor can refer the issue to the factory so that a solution can be found. Be patient, the service advisor may be unfamiliar with your specific issue.

Map Coverage

The navigation system provides map coverage for the Albania, Andorra, Austria, Azores Islands, Balearic Islands, Belarus, Belgium, Bosnia/Herzegovina, Bulgaria, Canary Island (Gran Canaria/Tenerife), Channel Islands, Ceuta, Croatia, Cyprus, Czech, Denmark, Estonia, Finland, France, French Guiana, Germany, Gibraltar, Greece, Guadeloupe, Hungary, Iceland, Ireland, Isle of Man, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Macedonia, Madeira, Malta, Martinique, Moldova, Monaco, Netherlands, Norway, Poland, Portugal, Reunion, Romania, Saint Bartheleme, San Marino, Serbia/Montenegro/Kosovo, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey, UK and Ukraine.

Traffic Information

Continuously updated traffic information is available in major metropolitan areas.

Some States, Territories and Countries do not allow certain liability exclusions or damages limitations, so to that extent the above may not apply to you.

Export Control: You agree not to export from anywhere any part of the Data or any direct product thereof except in compliance with, and with all licenses and approvals required under, applicable export laws, rules and regulations, including but not limited to the laws, rules and regulations administered by the Office of Foreign Assets Control of the U.S. Department of Commerce and the Bureau of Industry and Security of the U.S. Department of Commerce. To the extent that any such export laws, rules or regulations prohibit HERE from complying with any of its obligations hereunder to deliver or distribute Data, such failure shall be excused and shall not constitute a breach of this Agreement.

Entire Agreement: These terms and conditions constitute the entire agreement between HERE (and its licensors, including their licensors and suppliers) and you pertaining to the subject matter hereof, and supersedes in their entirety any and all written or oral agreements previously existing between us with respect to such subject matter.

Severability: You and HERE agree that if any portion of this agreement is found illegal or unenforceable, that portion shall be severed and the remainder of the Agreement shall be given full force and effect.

Governing Law: The above terms and conditions shall be governed by the laws of the State of Illinois (for Data for the Americas and/or the Asia Pacific region) or The Netherlands (for Data for Europe, the Middle East and Africa), without giving effect to (i) its conflict of laws provisions, or (ii) the United Nations Convention for Contracts for the International Sale of Goods, which is explicitly excluded. For any and all disputes, claims and actions arising from or in connection with the Data

(“Claims”), you agree to submit to the personal jurisdiction of (a) the State of Illinois for Claims related to Data for the Americas and/or the Asia Pacific region provided to you hereunder, and (b) The Netherlands for Data for Europe, the Middle East and/or Africa provided to you hereunder.

Government End Users: If the Data is being acquired by or on behalf of the United States government or any other entity seeking or applying rights similar to those customarily claimed by the United States government, this Data is a “commercial item” as that term is defined at 48 C.F.R. (“FAR”) 2.101, is licensed in accordance with this End User License Agreement, and each copy of Data delivered or otherwise furnished shall be marked and embedded as appropriate with the following “Notice of Use”, and be treated in accordance with such Notice:
